Prices of the accessories, products (sand, salt, chlorine, pH, bromine...), equipment (pump, heating system, salt electrolyser...), plant room electrical installation, spa maintenance, and of your customised maintenance contract will be given on request.

Contract terms:

Cleaning or maintenance products and accessories are not included and will have to be paid or provided by the client.

Products and accessories will be invoiced at the end of each month.

The contract does not include any other intervention than those defined. For any extra intervention, an estimate will be done and invoiced separately.

Interventions dates are to be chosen by the technician.

The contract does not include the replacement of damaged equipment between each intervention.

The contract only takes effect when the corresponding invoice is paid.

Winterization cannot guarantee the hydraulic networks will not freeze.

Winterization cannot be done without the accessories needed: pool cover, floaters...
